EXPERIENCE

UX Designer & Researcher | BYU-Idaho — September 2025 - Present

- Organized webpages and flows, using Figma, HTML, CSS, and JS that are used on the current official university sites
- Researched with a variety of testing methods, analyzed data with AI tools, and presented findings
- Reduced user friction by 80% by researching and suggesting changes to the ticket-buying process; Increasing retention and increasing profits for the activities and events departments
- Partnered with developers to implement front-end and back-end solutions based on research findings

Operator | Becklar Monitoring Center (Life-Saving Help for Seniors) — May 2025 - September 2025

- Coordinated with subscribers, dispatchers, and dealers to provide service and life-saving help
- Responded to subscribers to identify needs and make life-saving decisions under pressure
- Followed protocol and strict guidelines to protect subscribers and the company

Etsy Shop Owner | Self-Employed — July 2020 - Present

- Created, managed, and sold 10,000 digitally designed products (planners, stationery, etc.)
- Received over 600 reviews with a 4.5-star review average for customer service and product quality
- Designed product mockups, marketing graphics, and responsive layouts for digital listings.
- Used tools such as InDesign, Photoshop, Illustrator, Canva, and Procreate

Administrator, Team Lead & Tutor | BYU-Idaho Study Skills Center — February 2024 - April 2025

- Led teams of 10-20 tutors in meetings to improve performance and increase workplace unity
- Conducted one-on-one interviews and created reports to measure employee performance
- Scheduled and managed over 200 appointments weekly with Microsoft tools (Excel, Word, Teams)
- Coached 10+ students weekly on study, time management, and life skills

PERSONAL PROJECTS

Web Dashboard (HTML, JS)

A bookmarking web app, used to create a dashboard-style web tab with your most recently used sites.

GoMama (React Native, JS, Python, Firebase)

A hub to help relieve the mental load from moms. Automates groceries, cleaning, and schedules. Empowers family members to communicate and contribute.
